Uma Bharti to release Detailed Project Report on Forestry Interventions for Ganga

Union Minister for Water Resources, River Development and Ganga Rejuvenation Sushri Uma Bharti will release Detailed Project Report on Forestry Intervention for Ganga on March 22, 2016 in New Delhi.

As a part of Ganga rejuvenation programme, forestry interventions all along the course of river has been envisaged. In the process, the National Mission on Clean Ganga (NMCG) under Ministry of Water Resources, River Development and Ganga Rejuvenation entrusted one year assignment to the Forest Research Institute (FRI), Dehradun to prepare Detailed Project Report (DPR) on Forestry Interventions for Ganga in April, 2015.

The FRI submitted the draft DPR to the NMCG on February 16, 2016. Subsequently the Water Resources Ministry conveyed its approval and asked FRI to finalize the DPR incorporating the specific comments and suggestions made by the NMCG/Ministry. The final DPR will be released in the presence of Union Minister for Environment, Forests and Climate Change Shri Prakash Javadekar and Union Minister of State for Water Resources, River Development and Ganga Rejuvenation Prof. Sanwar Lal Jat.

A day long workshop has also been organised to mark the release of DPR. Senior officials of five participating states (Uttarakhand, Uttar Pradesh, Bihar, Jharkhand, and West Bengal) representing the respective Governments and concerned State Forest Department, environmentalists, scientists, representatives of Eco Task Force, ITBP, Nehru Yuva Kendra Sangathan and Civil Society Organizations have also been invited to the workshop.

The preparation of DPR envisaged extensive consultations with various stakeholders in the context of river Ganga at the national and state levels and incorporation of science based methodology. This included use of remote sensing and GIS technologies for spatial analysis and modeling of pre-delineated Ganga riverscape covering 83,946 sq.km out of a much larger [Ganga River](#) basin within the country. FRI has designed four sets of field data formats to obtain the site based information on proposed forestry plantations in natural, agriculture, and urban landscapes along the river course and other conservation interventions. More than 8,000 data sheets were obtained from five states along the river course. The Institute also developed a software to collate, analyze and report generation on potential plantation and treatment models.

Extensive plantations in natural, agriculture, and urban landscapes besides conservation interventions such as soil and water conservation, riparian wildlife management, wetland management, and supporting activities such as policy and law interventions, concurrent research, monitoring and evaluation, and mass awareness campaigns have been envisioned in the DPR.

Altogether, 40 different plantation and treatment models have been selected for implementation by five states. The project will be implemented over a period of five years by the State Forest Departments of five participating states in Phase-I (2016-2021).

The project envisages active involvement of two battalions of Eco Task Force in the states of Uttarakhand and Uttar Pradesh for raising plantations in difficult terrains. The State Forest Departments in five states are also expected to involve ITBP, Nehru Yuva Kendra Sangathan and Civil Society Organizations for various proposed activities including monitoring and awareness campaigns.

Uma Bharti to release report on forest intervention for Ganga on 22 March

New Delhi: Union minister [Uma Bharti](#) will release a detailed project report (DPR) on forestry intervention for the Ganga river here on 22 March.

Forestry interventions all along the river course have been envisaged as part of the Ganga rejuvenation programme.

The National Mission on Clean Ganga under the ministry of water resources, river development and Ganga rejuvenation had given a one-year assignment to the Forest Research Institute, Dehradun, to prepare the report on forestry interventions for Ganga last year.

After the institute submitted the draft DPR to the mission, the water resources ministry conveyed its approval and asked the Dehradun-based institute to finalise the DPR incorporating specific comments and suggestions made by the ministry.

The final DPR will be released in the presence of Environment, Forests and Climate Change Minister Prakash Javadekar and Minister of State for Water Resources, River Development and Ganga Rejuvenation Sanwar Lal Jat.

A daylong workshop will also be organised to mark the release of the DPR.

Uma Bharti to release report on cleaning Ganga

A detailed project report on forestry intervention for cleaning river Ganga with the aid of plantations in natural, agriculture, and urban landscapes will be released here on March 22.

The report has been prepared by Forest Research Institute (FRI), Dehradun and will be released by Union Minister for Water Resources, River Development and Ganga Rejuvenation Uma Bharti during a day-long workshop.

Officials of five participating states - Uttarakhand, Uttar Pradesh, Bihar, Jharkhand, and West Bengal - representing the governments and concerned state forest department, environmentalists, scientists, representatives of eco task force etc. have been invited as well.

The detailed report has been prepared after extensive consultations with various stakeholders at the national and state levels and using remote sensing and GIS technologies for spatial analysis and modeling of pre-delineated Ganga riverscape covering 83,946 sq km," the ministry said.

FRI has designed four sets of field data formats to obtain the site based information on proposed forestry plantations in natural, agriculture, and urban landscapes along the river course and other conservation interventions.

The institute also developed a software to collate, analyze and report generation on potential plantation and treatment models.

Extensive plantations in natural, agriculture, and urban landscapes besides soil and water conservation, riparian wildlife and wetland management, in addition to supporting policy and law interventions, research, monitoring and evaluation, and awareness campaigns have been envisioned in the DPR.

Altogether, 40 different plantation and treatment models have been selected for implementation by five states.

The project will be implemented over a period of five years by the state forest Departments of five participating states between 2016 and 2021.

Union Minister for Water Resources, River Development and Ganga Rejuvenation Uma Bharti will release the Detailed Project Report (DPR) on Forestry Intervention for Ganga here on March 22.

As a part of the Ganga rejuvenation programme, forestry interventions all along the course of river have been envisaged, an official press release said.

The National Mission on Clean Ganga (NMCG) Rejuvenation had entrusted the Forest Research Institute (FRI), Dehradun in April 2015 to prepare within a year, a DPR on Forestry Interventions.

The FRI submitted the draft DPR to the NMCG on February 16. Subsequently the Water Resources Ministry conveyed its approval and asked FRI to finalize the DPR incorporating the specific comments and suggestions made by the NMCG/Ministry, the release added.

The final DPR will be released in the presence of Union Minister for Environment, Forests and Climate Change Prakash Javadekar and Minister of State for Water Resources, River Development and Ganga Rejuvenation Prof. Sanwar Lal Jat.

A day-long workshop has also been organised to mark the release of the DPR. Senior officials of five participating states (Uttarakhand, Uttar Pradesh, Bihar, Jharkhand, and West Bengal), concerned State Forest Department, environmentalists, scientists, representatives of Eco Task Force, ITBP, Nehru Yuva Kendra Sangathan and Civil Society Organizations have also been invited to the workshop.

The preparation of the DPR envisaged extensive consultations with various stakeholders in the context of river Ganga at the national and state levels and incorporation of science-based methodology, the release said.

This included use of remote sensing and GIS technologies for spatial analysis and modeling of pre-delineated Ganga riverscape covering 83,946 sq.km out of a much larger Ganga river basin.

FRI has designed four sets of field data formats to obtain the site based information on proposed forestry plantations in natural, agriculture, and urban landscapes along the river course and other conservation interventions.

More than 8,000 data sheets were obtained from five states along the river course. The Institute also developed a software to collate, analyze and report generation on potential plantation and treatment models.

Extensive plantations in natural, agriculture, and urban landscapes besides conservation interventions such as soil and water conservation, riparian wildlife management, wetland management, and supporting activities such as policy and law interventions, concurrent research, monitoring and evaluation, and mass awareness campaigns have been envisioned in the DPR.

Altogether, 40 different plantation and treatment models have been selected for implementation by five states. The project will be implemented over a period of five years by the State Forest Departments of five participating states in Phase-I (2016-2021).

The State Forest Departments in five states are also expected to involve ITBP, Nehru Yuva Kendra Sangathan and Civil Society Organizations for various proposed activities including monitoring and awareness campaigns, the release added.

Detailed Project Report on forestry intervention for Clean Ganga to be out on March 22

NEW DELHI: The Detailed Project Report (DPR) on forestry intervention for a Clean Ganga, which envisages extensive plantations in natural, agricultural, and urban landscapes as also mass awareness drives to boost efforts for protecting the river, will be released here next week.

Union Minister for Water Resources, River Development and Ganga Rejuvenation, Uma Bharti, will release the DPR on March 22, 2016 on which a day-long workshop has been planned that will also be attended by Environment Minister Prakash Javadekar, an official statement said here.

The government had entrusted Forest Research Institute (FRI), Dehradun, to prepare the DPR in April last year with an eye on achieving an increase in the river's water flow.

FRI submitted the draft DPR to National Mission for Clean Ganga (NMCG) on February 16 this year. The final report, prepared after incorporating suggestions and comments by NMCG and other officials, will now be released by Bharti.

FRI has designed four sets of field data formats to obtain site-based information on proposed forestry plantations in natural, agricultural, and urban landscapes along the river course and other conservation interventions.

More than 8,000 data sheets were obtained from five states along the river course. The institute also developed software to collate, analyse and report generation on potential plantation and treatment models.

Extensive plantations in natural, agricultural, and urban landscapes besides conservation interventions such as soil and water conservation, riparian wildlife management, wetland management and supporting activities such as policy and law interventions, concurrent research, monitoring and evaluation, and mass awareness campaigns have been envisioned in the DPR.

Altogether, 40 different plantation and treatment models have been selected for implementation by five states -- Uttarakhand, Uttar Pradesh, Bihar, Jharkhand and West Bengal. The project will be implemented over a period of five years by the State Forest Departments of these five states in Phase-I (2016-2021), the statement said.

As part of the project, active involvement of two battalions of Eco Task Force has been envisaged in Uttarakhand and Uttar Pradesh for raising plantations in difficult terrains.

The specific state forest departments are also expected to involve ITBP, Nehru Yuva Kendra Sangathan and civil society organisations for various proposed activities, including monitoring and awareness campaigns. The statement said that the event will also be attended by Union Minister of State for Water Resources River Development and Ganga Rejuvenation, Sanwar Lal Jat. Senior officials of the five state governments, scientists, environmentalists, representatives of ETF, ITBP, Nehru Yuva Kendra Sangathan and civil society organisations are likely to take part in the workshop.

The DPR preparation saw extensive consultations with various stakeholders at the national and state levels and incorporation of science-based methodology, including use of remote sensing and GIS technologies for spatial analysis and modelling of pre-delineated Ganga riverscape covering 83,946sq.km out of a much larger Ganga River basin area, the country, the Ministry said.

Bharti to release DPR on forestry interventions for Ganga river

Union Water Resources, River Development and Ganga Rejuvenation Minister Uma Bharti will release Detailed Project Report (DPR) on Forestry Intervention for Ganga river on March 22 here.

As a part of Ganga rejuvenation programme, forestry interventions all along the course of river has been envisaged.

In the process, the National Mission on Clean Ganga (NMCG) under Ministry of Water Resources, River Development and Ganga Rejuvenation has entrusted one year assignment to the Forest Research Institute (FRI), Dehradun to prepare DPR on Forestry Interventions for Ganga in April 2015.

The FRI submitted the draft DPR to the NMCG on February 16.

Subsequently, the Water Resources Ministry conveyed its approval and asked the FRI to finalise the DPR incorporating the specific comments and suggestions made by the NMCG/Ministry, an official statement said today.

The final DPR will be released in the presence of Union Environment, Forests and Climate Change Minister Prakash Javadekar and Union Minister of State for Water Resources, River Development and Ganga Rejuvenation Minister Sanwar Lal Jat. More UNI NY RSA AE 1436

Uma Bharti to release forestry intervention DPR on Ganga

New Delhi, March 17 (IANS);-Union minister Uma Bharti will release a detailed project report (DPR) on forestry intervention for the Ganga river here on March 22.

Forestry interventions all along the river course have been envisaged as part of the Ganga rejuvenation programme.

The National Mission on Clean Ganga under the ministry of water resources, river development and Ganga rejuvenation had given a one-year assignment to the Forest Research Institute, Dehradun, to prepare the DPR on forestry interventions for Ganga last year.

After the institute submitted the draft DPR to the mission, the water resources ministry conveyed its approval and asked the Dehradun-based institute to finalise the DPR incorporating specific comments and suggestions made by the ministry.

The final DPR will be released in the presence of Environment, Forests and Climate Change Minister Prakash Javadekar and Minister of State for Water Resources, River Development and Ganga Rejuvenation Sanwar Lal Jat.

A daylong workshop will also be organised to mark the release of the DPR.

A daylong workshop will also be organised to mark the release of the DPR.

DPR on forestry intervention for Clean Ganga to be out on Mar

New Delhi, Mar 17 (PTI) The Detailed Project Report (DPR) on forestry intervention for a Clean Ganga, which envisages extensive plantations in natural, agricultural, and urban landscapes as also mass awareness drives to boost efforts for protecting the river, will be released here next week.

Union Minister for Water Resources, River Development and Ganga Rejuvenation, [Uma Bharti](#), will release the DPR on March 22, 2016 on which a day-long workshop has been planned that will also be attended by Environment Minister [Prakash Javadekar](#), an official statement said here.

The government had entrusted Forest Research Institute (FRI), Dehradun, to prepare the DPR in April last year with an eye on achieving an increase in the rivers water flow.

FRI submitted the draft DPR to National Mission for Clean Ganga (NMCG) on February 16 this year. The final report, prepared after incorporating suggestions and comments by NMCG and other officials, will now be released by Bharti.

FRI has designed four sets of field data formats to obtain site-based information on proposed forestry plantations in natural, agricultural, and urban landscapes along the river course and other conservation interventions.

More than 8,000 data sheets were obtained from five states along the river course. The institute also developed software to collate, analyse and report generation on potential plantation and treatment models.

Extensive plantations in natural, agricultural, and urban landscapes besides conservation interventions such as soil and water conservation, riparian wildlife management, wetland management and supporting activities such as policy and law interventions, concurrent research, monitoring and evaluation, and mass awareness campaigns have been envisioned in the DPR.

Altogether, 40 different plantation and treatment models have been selected for implementation by five states -- Uttarakhand, Uttar Pradesh, Bihar, Jharkhand and West Bengal.

The project will be implemented over a period of five years by the State Forest Departments of these five states in Phase-I (2016-2021), the statement said.

As part of the project, active involvement of two battalions of Eco Task Force has been envisaged in Uttarakhand and Uttar Pradesh for raising plantations in difficult terrains.

The specific state forest departments are also expected to involve ITBP, Nehru Yuva Kendra Sangathan and civil society organisations for various proposed activities, including monitoring and awareness campaigns.

DPR on forestry intervention for Clean Ganga

The Forest Research Institute (FRI) submitted to Water Resource & Ganga Rejuvenation Ministry, a Detailed Project Report (DPR) on forestry intervention for a Clean Ganga, emphasising on extensive plantations in natural, agricultural, and urban landscapes as also mass awareness drives to boost efforts for protecting the river. The DPR aims at achieving an increase in the flow of river water.

According to the Ministry, the experts used remote sensing and GIS technologies for spatial analysis and modeling of pre-delineated Ganga riverscape covering 83,946sq.Km out of a much larger Ganga River basin area in the country.

FRI has designed four sets of field data formats to obtain site specific information on proposed forestry plantations in natural, agricultural, and urban landscapes along the river course and in other conservation interventions.

More than 8,000 data sheets were obtained from five States along the river course. The institute also developed software to collate, analyse and report generation on potential plantation and treatment models.

Extensive plantations in natural, agricultural, and urban landscapes besides conservation interventions such as soil and water conservation, riparian wildlife management, wetland management and supporting activities such as policy and law interventions, concurrent research, monitoring and evaluation, and mass awareness campaigns have been envisioned in the DPR.

Altogether, 40 different plantation and treatment models have been selected for implementation by five States — Uttarakhand, Uttar Pradesh, Bihar, Jharkhand and West Bengal.

The project will be implemented over a period of five years by the State Forest Departments of these five states in Phase-I (2016-2021), the statement said.

As part of the project, active involvement of two battalions of Eco Task Force has been envisaged in Uttarakhand and Uttar Pradesh for raising plantations in difficult terrains.

The specific State forest departments are also expected to involve ITBP, Nehru Yuva Kendra Sangathan and civil society organisations for various proposed activities, including monitoring and awareness campaigns.

The DPR will be released by the Minister for Water Resources, River Development and Ganga Rejuvenation, Uma Bharti, on March 22, 2016. The meeting will also be attended by the Environment Minister Prakash Javadekar.

Uma Bharti to release forestry intervention DPR on Ganga

Updated: Thursday, March 17, 2016,

New Delhi, March 17: Union minister Uma Bharti will release a detailed project report (DPR) on forestry intervention for the Ganga river here on Tuesday, March 22. Forestry interventions all along the river course have been envisaged as part of the Ganga rejuvenation programme.

The National Mission on Clean Ganga under the ministry of water resources, river development and Ganga rejuvenation had given a one-year assignment to the Forest Research Institute, Dehradun, to prepare the DPR on forestry interventions for Ganga last year. After the institute submitted the draft DPR to the mission, the water resources ministry conveyed its approval and asked the Dehradun-based institute to finalise the DPR incorporating specific comments and suggestions made by the ministry. The final DPR will be released in the presence of Environment, Forests and Climate Change Minister Prakash Javadekar and Minister of State for Water Resources, River Development and Ganga Rejuvenation Sanwar Lal Jat. A daylong workshop will also be organised to mark the release of the DPR. IANS

उमा भारती गंगा किनारे वनरोपण योजना की विस्तृत परियोजना रिपोर्ट जारी करेंगी March 17, 2016

केंद्रीय जल संसाधन, नदी विकास और जल संरक्षण मंत्री सुश्री उमा भारती 22 मार्च, 2016 को नई दिल्ली में गंगा किनारे वन रोपण (वानिकी हस्तक्षेप) पर विस्तृत परियोजना रिपोर्ट जारी करेंगी।

गंगा संरक्षण कार्यक्रम के एक हिस्से के तौर पर पूरी गंगा नदी के किनारे पेड़ लगाने (वानिकी हस्तक्षेप) की योजना है। इस प्रक्रिया में जल संसाधन, नदी विकास और गंगा संरक्षण मंत्रालय के तहत गठित स्वच्छ गंगा राष्ट्रीय मिशन ने (एनएमसीजी) फोरेस्ट रिसर्च इंस्टीट्यूट (एफआरआई), देहरादून को यह जिम्मेदारी दी है कि वह वानिकी हस्तक्षेप के बारे में एक विस्तृत परियोजना रिपोर्ट तैयार करे। एफआरआई को यह जिम्मा, अप्रैल 2015 में दिया गया था।

एफआरआई ने विस्तृत परियोजना रिपोर्ट का मसौदा एनएमसीजी को 16 फरवरी, 2016 को सौंप दिया था। इसके बाद जल संसाधन मंत्रालय ने इस बारे में अपनी मंजूरी देते हुए एफआरआई को इस रिपोर्ट को अंतिम रूप देने और इसमें एनएमसीजी/मंत्रालय की विशेष टिप्पणियों और सुझावों को शामिल करने को कह दिया।

अंतिम विस्तृत परियोजना रिपोर्ट केंद्रीय पर्यावरण, वन और जलवायु परिवर्तन मंत्री श्री प्रकाश जावड़ेकर और केंद्रीय जल संसाधन, नदी विकास और गंगा संरक्षण राज्य मंत्री प्रोफेसर सांवरलाल जाट की उपस्थिति में जारी होगी।

इस संबंध में हाल में एक दिवसीय कार्यशाला का आयोजन किया गया। इसमें पांच भागीदार राज्यों (उत्तराखंड, उत्तर प्रदेश, बिहार, झारखंड और पश्चिम बंगाल) के वरिष्ठ अधिकारियों ने अपनी-अपनी सरकारों का प्रतिनिधित्व किया। इसमें संबंधित राज्यों के वन विभागों, पर्यावरणविदों, वैज्ञानिकों, इको टास्क फोर्स के प्रतिनिधियों, नेहरू युवा केंद्र संगठन और सिविल सोसाइटी संगठनों को भी आमंत्रित किया गया था।

विस्तृत परियोजना रिपोर्ट तैयार करने में गंगा नदी के संदर्भ में राष्ट्रीय और राज्य स्तर के सभी पक्षों (हिस्सेदारों) के साथ सलाह-मशविरा किया गया है और इसमें वैज्ञानिक पद्धति पर आधारित तरीकों को शामिल किया गया है। इसमें रिमोट सेंसिंग और जीआईएस जैसी तकनीकों का इस्तेमाल किया गया है।

एफआरआई ने नदी किनारे की प्राकृतिक, कृषि और शहरी जमीन पर प्रस्तावित वन रोपण और अन्य पारंपरिक संरक्षण विधियों पर जानकारी जुटाने के लिए फील्ड आंकड़े के चार सेट प्रारूप तैयार किए हैं। गंगा नदी के किनारे के पांच राज्यों से एफआरआई ने आठ हजार आंकड़ा पत्र हासिल किया है। प्रस्तावित वन रोपण और गंगा संरक्षण में इस्तेमाल मॉडलों से संबंधित आंकड़ों के मिलान, विश्लेषण और रिपोर्ट तैयार करने के लिए एफआरआई ने एक सॉफ्टवेयर विकसित किया है।

विस्तृत परियोजना रिपोर्ट में गंगा किनारे के प्राकृतिक, कृषि और शहरी जमीन पर पेड़ लगाने की योजना की सिफारिश है। इसके अलावा मिट्टी और जल संरक्षण के कदम उठाए जाने की बात कही है। नदी किनारे के वन्य जीव प्रबंधन पर भी जोर होगा। दलदली भूमि संरक्षण और अन्य गतिविधियों को भी अपनाने के लिए कहा गया है।

इसके अलावा इस परियोजना के साथ ही इस पर शोध, निगरानी और मूल्यांकन की भी व्यवस्था होगी। वनरोपण को बढ़ावा देने के लिए आम जनता के बीच व्यापक जागरूकता कार्यक्रम चलाने की भी बात की गई है।

गंगा पर वानिकी हस्तक्षेप की डीपीआर जारी करेंगी उमा भारती

नई दिल्ली, 17 मार्च (वीएनआई)। केंद्रीय मंत्री उमा भारती 22 मार्च को गंगा नदी के किनारे वनरोपण (वानिकी हस्तक्षेप) पर एक विस्तृत परियोजना रिपोर्ट (डीपीआर) जारी करेंगी।

गंगा संरक्षण कार्यक्रम के एक हिस्से के तौर पर गंगा नदी के किनारे पेड़ लगाने (वानिकी हस्तक्षेप) की योजना है। इस प्रक्रिया में जल संसाधन, नदी विकास और गंगा संरक्षण मंत्रालय के तहत गठित राष्ट्रीय स्वच्छ गंगा मिशन ने (एनएमसीजी) फॉरेस्ट रिसर्च इंस्टीट्यूट (एफआरआई), देहरादून को यह जिम्मेदारी दी है कि वह वानिकी हस्तक्षेप के बारे में एक विस्तृत परियोजना रिपोर्ट तैयार करे। एफआरआई को यह जिम्मा, पिछले साल दिया गया था।

संस्थान द्वारा मसौदा एनएमसीजी को सौंपने के बाद जल संसाधन मंत्रालय ने इस पर अपनी मंजूरी देते हुए एफआरआई को इस रिपोर्ट को अंतिम रूप देने और इसमें एनएमसीजी/मंत्रालय की विशेष टिप्पणियों और सुझावों को शामिल करने को कहा। अंतिम विस्तृत परियोजना रिपोर्ट केंद्रीय पर्यावरण, वन और जलवायु परिवर्तन मंत्री प्रकाश जावड़ेकर और केंद्रीय जल संसाधन, नदी विकास और गंगा संरक्षण राज्य मंत्री प्रोफेसर सांवरलाल जाट की उपस्थिति में जारी की जाएगी। विस्तृत परियोजना रिपोर्ट जारी होने के अवसर पर एक दिवसीय कायर्शाला का भी आयोजन किया जा रहा है।
