Educational exposure visit of KV students to FRI, Dehradun

under programme "PRAKRITI"

As it is known that a MoU between ICFRE and Kendriya Vidyalaya Sangathan, New Delhi has been signed to promote awareness about forest and environment among school children for acquiring skills for care and protection towards forests, environment and society. In the compliance, exposure visit of KVS students was conducted to FRI, Dehradun.

Students from KV FRI, KV IMA and KV ONGC have been sent by KVS authorities along with their teachers Mr. Mohit Ghai, Mr. Narayan Singh and Smt. Sudesh Bharti on 25 Jan 2019 on first educational exposure visit of Forest Research Institute, Dehradun. Dr. Devendra Kumar, Scientist D, Extension Division, FRI welcomed and gave brief information about Forest Research Institute, Dehradun. He also explained about the benefits/contribution of forest for society and environment. Thereafter according to programme, students visited Forest Pathology museum, FRI. There Dr. Manoj Kumar, Technical Officer described about various kind forest disease and their control measures. KV Students visited Silviculture museum, there Dr. Vishavjeet Sharma, Technical Officer explained about the various silviculture systems and enlighten the students about various aspects of silviculture.

KV Students also visited Timber Museum, there Dr. Smita Nautyal, Scientist D, Forest Wood Product Division briefed about the wood preservation, drying techniques and explained various queries on other wood related issues.

KV Students then moved to Forest Entomology Museum, there Dr. A.P.Singh, Scientist E, Forest Protection Division briefed about the insect pest of forest trees, beneficial insects like, bees and butterflies and explained about the queries raised by KV students.

KV Students then visited Non Wood Forest Product Museum, there Mr. Nikhil Kumar, Technical Officer, briefed about the produce obtained from the forest other than timber. He showed various NWFPs collected from forest and explained well about queries raised by students on related issues.

KV Students then moved to visit Bambusetum, Botany Division, FRI. There Dr. Praveen Kumar, Verma, Scientist C, Botany Division, FRI briefed about various species of bamboo and their importance. All the students interacted with Dr. Verma in bamboosetum and asked about the difference in different bamboo species. Dr. Verma replied on various queries raised by students on bamboo related issues.

The snacks were provided to all the students. The students showed great interest on various topics during their visit to FRI, Dehradun. They were confident and showed full enthusiasm for care and protection of environment and forests. The visit was coordinated by Extension Division, Forest Research Institute, Dehradun.
