

# **Two days Training Program on BIOTECHNOLOGICAL APPLICATIONS IN TREE BREEDING**

**09<sup>th</sup>-10<sup>th</sup>, February 2012**

The Institute of Forest Genetics and Tree Breeding, Coimbatore, conducted a two days training programme on “Biotechnological applications in Tree Breeding” for High School Biology Teachers and Research Scholars from February 09-10, 2012. The programme was attended by 9 teachers and 7 research fellows. The participants were provided with an opportunity for getting introduced and familiarized with modern biotechnology tools like PCR, molecular markers, gene isolation, bioinformatics, tissue culture, vegetative propagation and genetic engineering from experts in the respective areas.
