### CONSERVATION, MANAGEMENT & SUSTAINABLE UTILIZATION OF LESSER KNOWN PLANTS (LKPs)

**(18-19 March 2021)**

#### THEME

LKPs need to come out of the shadows to bring into the limelight. Some national research systems are supporting work on these plant species, though not to the same extent as research on other well known plants. Policy makers and funding agencies are now recognizing the value of LKPs for diversification of biodiversity. Scientifically much more work is required to be carried out in Lesser Known Plants facing various degrees of threats.

#### OBJECTIVES

- ❑ Emphasizing potential of LKPs in Forestry and Agriculture Sector.
- ❑ Strengthening the capacity to adopt innovative approaches and technology towards Lesser Known Plants (LKP).
- ❑ Ethnobotanical /Medicinal aspects of LKPs.
- ❑ To stimulate a global debate for conservation and sustainable utilization of LKPs.

Abstract in about 250-300 words, Times New Roman-12, spacing 1.5 along with name, designation, affiliation and associates may be sent through email to [mailme\\_lkp2021@rediffmail.com](mailto:mailme_lkp2021@rediffmail.com).

The selected presenters will be intimated and the link for joining the programme online will also be communicated. Selected Papers will be published in proceeding.

Date of conference  
**18-19<sup>th</sup> March 2021**

Last date of submission of  
abstract  
**28<sup>th</sup> February 2021**

Acceptance of abstract  
**5<sup>th</sup> March 2021**

Full paper submission  
**10<sup>th</sup> March 2021**

#### Patron

Dr. A.S. Rawat, IFS  
DG, ICFRE, Dehradun

#### Convener

Dr. Sanjay Singh  
Head, FRCER

#### Organizing Secretary

Dr. Anita Tomar  
Scientist E

#### Joint Secretary

Dr. Anubha Srivastav  
Scientist C
